

March 13, 2012
Labor and Public Employees Committee
Testimony to support collective bargaining
Senate Bill 352

As a Care4Kids provider, I take care of my grandson. I feed him and buy most of his playing needs. I am happy to see a union to help all involved form a better department. My grandson stays with me and we all feel safe knowing he is in great care and loved.

I feel the union should have a contract, as in 2012 it is needed for all to do what is right and so that there will be no confusion. We should like to have our checks on time, and maybe some more monies as it does help the children. Please approve bill SB 352. We are workers too and should have rights and a voice in what concerns our loved ones.

Thank You,

Denise Jones
